

Referrals

Referrals come from the local authority. Lyndale is able to provide support to service users who are receiving 117 Aftercare, on Section 17 leave, a supervised discharge, Guardianship order or Community Treatment Orders.

Before service users decide to move in to Lyndale, an assessment will be carried out by the Registered Manager from Lyndale with the service user and any other person the service user would like present. This assessment will form the basis of the service user plan that will be devised and formulated with the service user together with their key worker from Lyndale and will be amended and updated to reflect changes as they occur.

About Lyndale

Lyndale Residential Home is a 15 bedded unit that provides assessment, treatment and rehabilitation for adults with mental health needs within a community setting, whilst providing a safe and supportive environment.

Lyndale supports the recovery model of thinking and engages in the positive attributes of each individual.

Lyndale complies with the regulations of the Health and Social Care Act and is registered with the Care Quality Commission. Provider ID: 1-101611171.

Lyndale was opened as a residential home in 1987. The current owners have owned Lyndale. It is run by a team of practitioners with extensive experience in supporting people with mental health. The ethos of Lyndale is the belief that it is possible for meaningful life to be restored despite episodes of serious mental illness. Providing a holistic view of mental illness allows and encourages personal development, and the development of meaningful relationships. The emphasis is to promote a sense of personal responsibility for their own lives.

Lyndale has a good record of positive rehabilitation with many service users moving into more independent settings. Lyndale has become a leading choice within Mental Health Teams within Devon and Plymouth City Council, and also provides a service to other counties nationwide.

Aims and Objectives

It is the objective of the organisation to provide support of the highest quality to improve the client's overall quality of life by:-

- Providing a safe and supportive environment to adults with Mental Health Issues.
- Enabling clients to live their life to the fullest in a warm, friendly market community.
- Promoting individual's rights and dignity.
- Developing 'self help' skills for those that aspire to independent living.
- Recruiting sensitive, empathetic and appropriately trained staff.
- Providing an individual programme of care, which are monitored, reviewed and updated regularly.
- Providing a designated key worker system.
- Promoting strong working relationships with other professional agencies.
